Mission Statement
The mission of Padre Dam Municipal Water District is to provide quality water, recycled water, park and recreational facilities, and wastewater management services for our customers. We accomplish this mission in the most cost-effective manner possible, earning customer and community respect.

History
Formed in 1955 by resident request to the San Diego County Board of Supervisors to import water from the Colorado River. Originally named Rio San Diego Municipal Water District; renamed Padre Dam in 1976 upon merger with the Santee County Water District. Alpine Highlands Water District and Crest Public Utility District merged into Padre Dam in the 1980s. The district is named for the Old Mission Dam in Mission Trails Regional Park, built by Spanish missionaries circa 1807.
